## Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## Status

- 1) ☒ Responsive to communication(s) filed on 07 May 2004.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## Disposition of Claims

Paper No(s)/Mail Date. \_\_\_\_\_.
- 5) ☐ Notice of Informal Patent Application (PTO-152)
- 6) ☐ Other: \_\_\_\_\_.

### ***Claim Objections***

Claim 15 is objected to because of the following informalities: there should be an "an" just prior to "apparatus" in line 1. Appropriate correction is required.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The limitation "and/or" renders the claim indefinite as it is unclear whether engaging, lifting or both lifting and engaging are being claimed. For sake of examination it is assumed that the applicant meant "or".

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4,6,12,13,15 are rejected under 35 U.S.C. 102(b) as being anticipated by Warner (US 5,446,938).

Re claim 1, Warner teaches a load handling apparatus comprising:  
a pivot rod 36 having ends;  
at least one elongate member 6,13 having means for engaging or lifting a load; and  
at least one second elongate member 12,14 pivotally connected to said first-mentioned elongate member 6,13; and  
actuating means in the form of at least one airbag assembly having an airbag 20,21 and co-operating with said first and second elongate members to change the angular orientation of said first and second elongated members relative to each other upon inflation and deflation of the airbag and characterized in that said at least one airbag assembly includes at least one connecting strap 33 as part thereof, said connecting strap passing around said rod 36 as part of the load handling apparatus to secure the airbag with the apparatus.

Re claim 2, Warner teaches various additional members 9,10, etc.

Re claim 3, Warner teaches member 6 substantially twice the length of member 12.

Re claim 4, Warner teaches member 13 substantially equal in length to member 12.

Re claim 6, Warner teaches pneumatic mechanism 16.

Re claim 12, Warner teaches first and second airbags 20,21 with straps 33.

Re claim 13, Warner teaches castellated straps 33.

Re claim 15, Warner teaches an airbag for apparatus according to any preceding claim (such as claim 1) having a number of interconnecting compartments inflation of

the airbag is restrained at one edge or part thereof characterized in that said airbag includes at said edge or part at least one connecting strap said connecting strap provided to pass around the rod and secure the airbag thereto.

***Allowable Subject Matter***

Claims 5,14 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

***Conclusion***

Applicant's arguments filed 5/17/04 have been fully considered but they are not persuasive.

The argument that the claims are allowable simply because the independent claim was amended is not persuasive since the current claim limitations still read on the known prior art.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
